TRAVEL GREEN

We're passionate and committed to preserving Scotland's natural heritage

We have adapted and continue to promote environmental awareness both in our business and to our customers.

Our vehicles are fuel efficient, with the latest engines and are all upgraded every 3 years to ensure maximum fuel efficiency.

We aim to support local businesses in Scotland when transporting passengers on our multi-day tours, so we can contribute to local communities. This includes booking accommodation in local hostels, B&Bs and hotels, to ensure you have that authentic Scottish experience.

We are always thinking of ways we can improve aspects of our business to reduce any negative impact we may have. For our efforts, we have been awarded Gold in the Green Tourism Business Scheme and 5* in Eco Stars Fleet Recognition scheme. Our team regularly volunteer at local green projects and our customers have the option to donate to Trees for Life, a charity supporting the regeneration of the Caledonian Forest.

You can find out more about our environmental efforts on timberbush-tours.co.uk/timberbush-environment.
